

RailCorp

Dear Householder,

To ensure rail customers enjoy more efficient rail infrastructure with smoother rides, quieter tracks and fewer interruptions to train services, work is planned for the rail network.

RailCorp is undertaking essential rail upgrading works and maintenance on the **Freight Train lines only** between:-

Botany and Marrickville and Marrickville to Enfield

From 02:00am Saturday morning 04th October 2008 Continuously until 11:00pm Monday night 06th October 2008

Enfield to Chullora and Enfield to Flemington to Nth Strathfield Junction

From 02:00am Saturday morning 04th October 2008 Continuously until 11:00pm Monday night 06th October 2008

Your co-operation would be greatly appreciated by not restricting boundary access gates along the rail corridor

Please consider that machinery and plant equipment require more turning space than smaller vehicles.

Unfortunately, there will be some noise associated with the movement of freight train services, however, it will be minimised where possible.

For environmental complaints or to obtain further information please call Rail Greenline on 1300 656 999 or visit www.cityrail.info.
