Changes to Freight Sales Australia

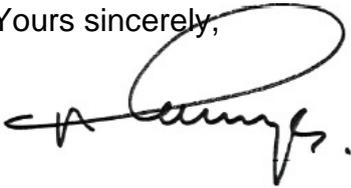

As Qantas moves towards creating a flatter, leaner organisation the following changes have been made in the Freight Sales division.

In order to focus attention on the Australian market, Andrew Pawley will be responsible for the Australia/NZ region with an increased management responsibility for NSW Sales.

As a result, Vicky Karthans will be leaving Qantas and the NSW Sales team will report to Andrew.

I would like to take this opportunity to thank Vicky for her considerable contribution to the business over the past seven years and wish her every success in her future endeavours.

Yours sincerely,
