

## **Perth International Cargo Handling**

19.04.13

Qantas Freight is in the process of integrating the business of Australian air Express (AaE) to create Australia's leading air freight services business.

On **Tuesday 23 April** we will transition the existing AaE **Perth international** cargo handling functions to the Qantas Freight facility at the Perth international airport. Domestic operations continue unchanged.

Customers are required to lodge all international export cargo at the Qantas Freight facility from 23 April.

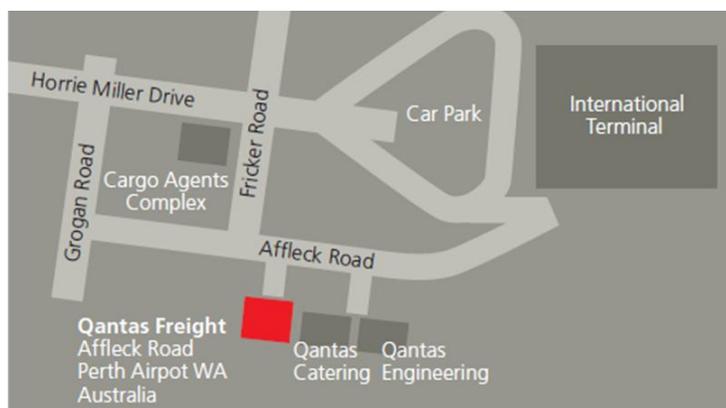

Any international import cargo arriving into the AaE facility prior to 23 April will still need to be collected by customers from the AaE facility. Cargo arriving on or after 23 April will be available for collection from the Qantas Freight international terminal

For all airlines that previously used AaE for export and import interline services in Perth, these services will be transitioned to the Qantas Freight facility on 23 April.

Detailed below are the contact details and map of the Qantas Freight international facility.

**Perth Freight Terminal**  
55 Affleck Road  
Perth International Airport  
Newburn WA 6104

Phone: +61 8 9477 8005  
Fax: +61 8 9477 8018

Thank you for your support while we implement this change.

Yours sincerely

Robert Brown  
Manager International Terminals
